

SOCIAL TRANSFORMATION

BY ITS VERY NATURE, OUR BUSINESS MODEL IS RESPONSIBLE, DEMOCRATIC AND SUSTAINABLE.

Our aim is to promote cooperatives as the world's foremost socio-business projects. We believe in the cooperative legacy, and besides cooperatives that are more robust and successful, we want coming generations to inherit a model of development that is better for people and the planet.

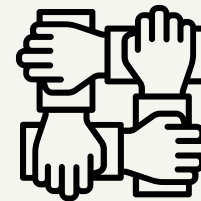

SUSTAINABILITY IS A STRATEGIC MAINSTAY FOR MONDRAGON.

Our mission is based on decent, quality employment, health and safety at work, education, sustainable consumption, innovation as the lever for a digital and eco-friendly transition, and support for social and community infrastructures and initiatives. In short, responding to society's needs lies right at the heart of our Social Transformation.

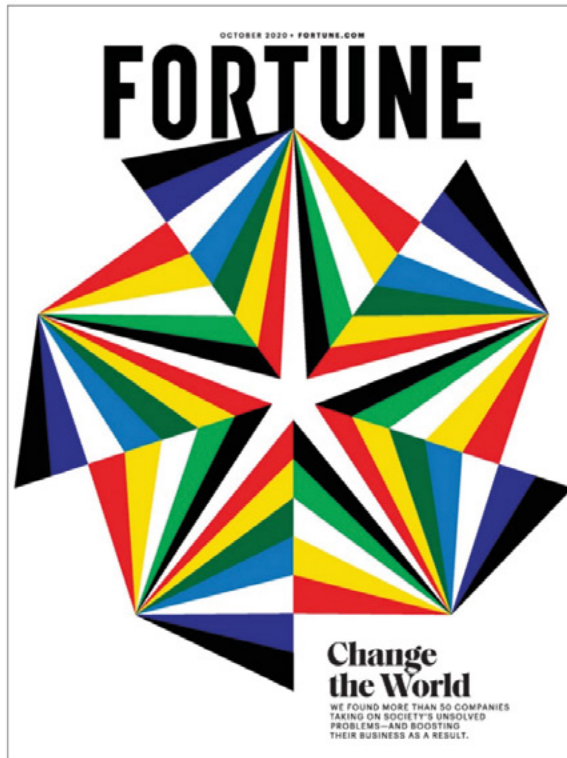

WE ARE THE WORLD'S LARGEST COOPERATIVE ECOSYSTEM IN SOCIAL INNOVATION.

We work shoulder-to-shoulder with business and social agents and the public administrations to create an environment of innovation, with our sights set firmly on social transformation. We look for sustainable solutions that will strike a balance between economic growth, environmental protection and social wellbeing.
